

Austrian Raiffeisen Bank International (RBI) and the Wealth Management Platform implemented by Dorsum have been awarded “HIGHLY COMMENDED” at the “Banking Technology Awards” in London on December 13th, 2018

Dorsum proudly shares the news that its solution, Wealth Management Platform, implemented for 5 network banks of Raiffeisen Bank International, was recognized as “Highly Commended” at the “Banking Technology Awards” in the category “Best Use of IT in Wealth Management”.

For 19 years the “Banking Technology Awards” honours excellence and innovation in the usage of IT solutions in financial services worldwide. It is also the reward for all involved colleagues who contribute to the project. For banks and financial institutions, winning a “Banking Technology Award” confirms the right decision to invest into the proper technology to improve customer experience and financial advice. For software providers, a “Banking Technology Award” is a valuable recognition of the company’s products and services, and an endorsement by the fintech community.

“We are delighted to receive this recognition, which is a proof of our successful cooperation with Dorsum. The Wealth Management Platform enables our subsidiaries in Central and Eastern Europe to provide industry-leading wealth management services and to meet all MiFidII requirements.” – says Peter Ipkovich, Executive Director, Private Banking at Raiffeisen Bank International.

Commenting on the firm's recognition, Imre Rokob, Director of Business Development at Dorsum says: *"It is an honor that we have been selected as "Highly Commended" within the Best IT Solution in Wealth Magement category. We worked hard to implement Wealth Management Platform at Raiffeisen network banks. I am proud that Dorsum became RBI's strategic partner for building a prestigious financial advisory tool across CEE."*
